TRAINING SETTINGS

☐ Disable definition auto-play

Definitions are spoken when a context question is answered correctly by default. Checking this box will disable definitions from being spoken automatically.

☐ Enable full spelling

Fill-in-the-blank questions require you to only get the first 3 letters by default. Checking this box will require you to spell out the entire word.

☐ Enable the "I Know This" checkbox

Check this box to claim "I Know This" on previously studied words. You should not use this option on words you didn't know when you started Membean just to move faster through the program.

☐ Hide progress timers

Some users find the progress timer distracting when answering questions. Checking this box will hide the progress timer when answering questions.

☐ Strong memory mode

When training, Membean may choose to show brand new words to introduce variety, so you see progress and stay motivated. However, this is not ideal for memory building. Checking this box will reinforce existing words first, so you will see new words less often.

Session length

15 Minutes ▼

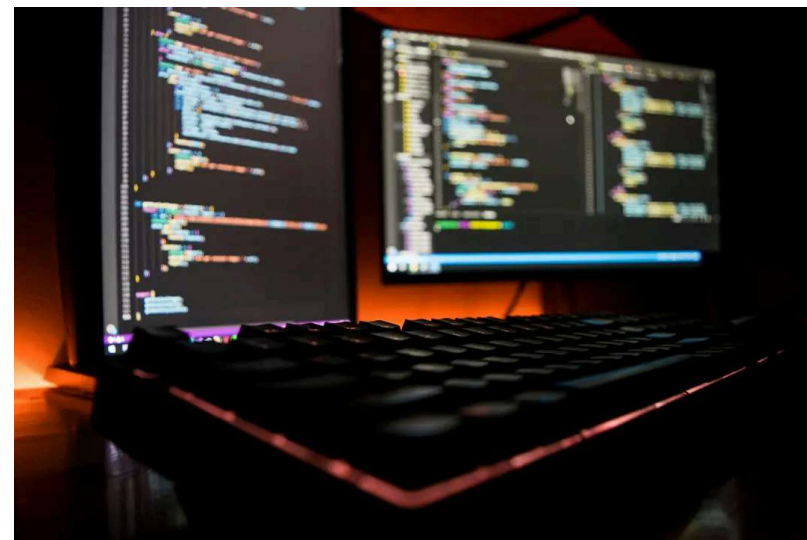

Select how long a default training session should last. Short sessions are better than long sessions. You can change this when starting each training session.

Hey Wang,

Thanks for reaching out. We do not have a record of a product under "Membeaner" or the affiliated URL [<https://www.membeaner.com/>] on Product Hunt. Based on this information, use of the badge would be unauthorized and non-genuine.

Please let us know if you have any other questions or concerns.

Best,
Ben
